This Cheat Sheet was requested for one block which finishes 9 x 9 inches.

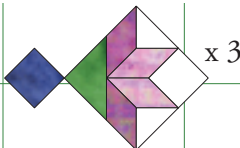

It uses small scraps of purple, light purple, blue, and green. (Print 2 sheets of purples, 2 of blue, 2 of green.)

All of the **white** shapes fit on less than one fat quarter. (Print 3 sheets of white, or 5 if you don't use Combos.)

If you are making more than one block, use the Catalogue of Shapes in each shape collection to re-do the Cheat Sheet, so you can print more shapes at a time (fewer sheets). For example, you can print 35 green leaves on one sheet of fabric 8.25 x 11.75 instead of just 6 leaves at a time.

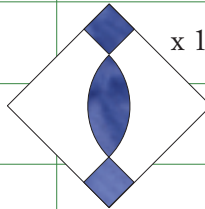

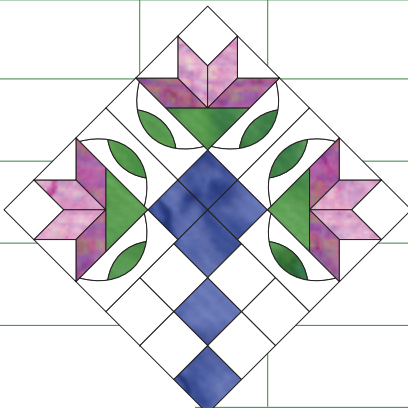

There are notes about preparing Cheat Sheets on the website and in each shape collection.

2 GREAT TIPS Cut a worksheet apart to make it easier to count the shapes. Use pencil on Cheat Sheets!
